FOR A BETTER SPACE

1993

ESTABLISHED

Erinaka Perdana was established in 1993 with a strong commitment to quality craftsmanship and furniture manufacturing, serving the needs of residential and commercial projects.

2000

EXPANSION

In 2000, we expanded our production capabilities, added new facilities and equipment, and continued to grow our furniture manufacturing operations to meet increasing market demand.

2005

GROWTH & DEVELOPMENT

In 2005, we continued to develop our expertise, production capabilities, and range of furniture solutions, strengthening our position in residential, commercial, and project-based markets.

Today

A STRONGER TOMORROW

Today, Erinaka Perdana continues to innovate and deliver high-quality furniture manufacturing and interior solutions, supported by modern technology, skilled workmanship, and long-term partnerships.

Our Vision & Mission

Vision

To become a leading furniture manufacturing company with strong competitiveness, recognized both locally and internationally.

Mission

- To produce high-quality furniture that meets international standards.
- To continuously develop and utilize modern equipment and efficient production systems.
- To develop competent and dedicated human resources.
- To create a conducive work environment and improve employee welfare.
- To expand business opportunities and contribute to the creation of employment.

Our Materials

We use high-quality materials to ensure durable, functional, and aesthetically appealing furniture.

Main Materials

Particle Board

Plywood

Barecore

MDF

Finishing Materials

HPL

Paper

PVC

ABS Tape / Edging

Our Production Flow

A well-organized production process with modern equipment and strict quality control to ensure consistent and high-quality furniture products.

1

Material Receiving
Raw materials such as particle board, MDF, plywood, HPL, and accessories are received and inspected for quality and quantity.

2

Cutting
Materials are cut according to design and size using a precision panel saw to ensure accurate dimensions.

3

CNC Bor
Panels are processed using CNC bor machine to create precise holes and drilling details according to design specifications.

4

Edge Banding
Panel edges are finished with high-quality ABS edge banding to provide a neat appearance and better durability.

5

Assembly
Components are assembled by skilled workers according to design specifications to ensure strong construction.

6

Finishing
Surface finishing is carried out according to product specifications, such as HPL application, lamination, and final touch-up.

7

Quality Control
Each product is carefully checked for size, construction, finishing, and overall quality to meet our standards.

8

Packing
Finished products are properly packed using protective materials to ensure safety during transportation.

9

Delivery
Products are delivered to customers domestically and internationally, on time and in excellent condition.

Export Furnitures

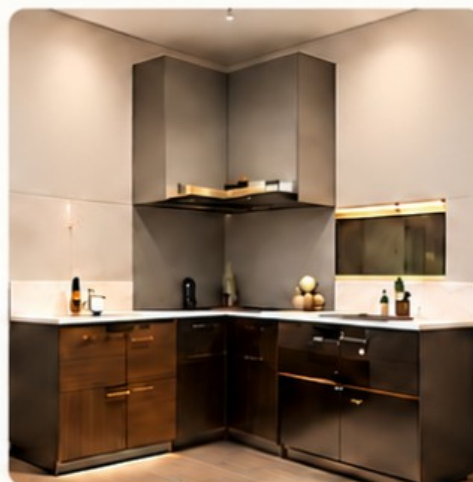

We manufacture various types of furniture for export markets, with consistent quality and international standards.
