About
Indo Hasasi Textiles

PT Indo Hasasi Textiles (IHT) was founded in 2010 in Bandung, West Java, Indonesia. Dedicated to providing high-quality fabrics at competitive prices to both local and international markets, IHT has progressively advanced through a commitment to sustainable and ethical business practices, fostering growth and success.

Currently producing a wide range of fabrics, IHT has been able to consistently supplying the fashion and work wear industry in Indonesia and abroad with high quality, durable fabrics in both synthetic and natural fibers. IHT also produces a range of fabrics designed to cater to the fashion industry, with a line of Viscose & other blends that are the perfect fit for both established fashion labels and start-up brands. Functional fabrics are also an ever-present in our range, with Moisture Management, Anti-Static, Flame Retardant, Anti-Bacterial and Water Repellent fabrics forming the backbone of our supply to both Government and Private sectors.

Production **Capabilities**

Weaving

Indo Hasasi Textiles operates Japanese Air Jet weaving looms.

Due to our commitment to high levels of routine maintenance and highly experienced technical team, we are able to produce high quality and consistent greige fabrics.

Numerous weaving patterns are produced, and we are always open to developing new fabric constructions to meet customer requirements.

Dyeing & Finishing

Our Dyeing & Finishing department encompasses a variety of dyeing technologies that yield a diverse array of finished, dyed fabrics. Led by a team of seasoned experts, our machinery is continuously upgraded to uphold the highest standards of production quality.

In addition to vibrant and long-lasting colors, we specialize in manufacturing functional fabrics with specialized finishes such as Fire Retardant, Soil Release, Anti-Viral, Water Repellent, and more.

Our finished fabrics consistently surpass industry quality benchmarks, reflecting our commitment to delivering durable, premium woven fabrics that are both aesthetically pleasing and of superior quality.

Our **Fabrics**

Uniform Fabrics

Our range of uniform fabrics offers dependable and consistent workwear solutions that cater to a variety of industries. Serving clientele in the medical, hospitality, defense, and government sectors, our fabrics undergo rigorous testing, ensuring versatility across a wide array of applications.

We specialize in crafting uniform fabrics from various materials such as **Polyester-Viscose**, 100% **Polyester**, and **Polyester-Cotton,** all available with spandex varieties.

Indo Hasasi Textiles has decades of experience outfitting governmental institutions across the globe, having handled countless tenders and contracts.

We offer fully custom made fabrics that we develop from the ground up for clients to meet their requirements, as well as a regular range of weaves, including **Plain**, **Twill** & **Ripstop** fabrics.

R&D Focus
For New Fabrics

Indo Hasasi Textiles has also established itself as an innovative, dynamic player in the textile space, and at the core of this is our ability to develop new fabrics and finishes for our customers based on their requirements and feedback. Our Research and Development team is highly skilled in bringing your fabric visions to life.

Due to our strength and dedication in our Dyeing & Finishing department, we can heavily modify our existing fabrics to **match colors, handfeel and finishing required** by customers.

We have also developed many new items completely from scratch, including new greige consutrctions and entirely new finishes, working closely with our customers and suppliers. **A key component of this is also our constant focus on revitalizing and re-investing in our machinery infrastructure** in order to keep up with the latest in textiles manufacturing technologies and trends. In the past year alone we have commissioned **new Singeing, Calendering, Weight Reduction** and other Dyeing & FInishing machines.

Our **Global Presence**

At Indo Hasasi Textiles, our fabrics travel far beyond Indonesia. With a presence in 20+ countries across Asia, the Middle East, Africa, South East & East Asia, we have built a reputation as a reliable supplier for both private sector brands and government institutions.

Environmental **Committment**

At PT Indo Hasasi Textiles, we are deeply committed to upholding the highest environmental standards in our dyeing processes. Our dedication to sustainability is reflected in every aspect of our operations, from sourcing eco-friendly dyes to implementing advanced water and energy conservation technologies.

We adhere to strict regulatory guidelines and continuously seek innovative methods to reduce our carbon footprint. By prioritizing the use of non-toxic, biodegradable dyes and investing in state-of-the-art waste treatment facilities, we ensure that our environmental impact is minimized. Our goal is not only to produce high-quality, vibrant fabrics but also to protect and preserve the natural world for future generations.

We have invested sizeable sums in our Waste Water Treatment facilities, and work closely with local authorities to ensure we are adhering to all local waste water regulations, and also conduct stringent, regular internal testing.

Our **Certification**

PT Indo Hasasi Textiles has been certified by Oeketox and holds a **Oekotex Standard 100 Class II** certified according to Oeketex 100 and Eco-Passport. Our certification is renewed every year.

The OEKO-TEX® STANDARD 100 is a label for textiles tested for harmful substances. It sets the benchmark for textile safety, from yarn to finished product. Every item bearing the STANDARD 100 label is certified as having passed safety tests for the presence of harmful substances
